

## ABOUT THE PROJECT

A place for everything. A finish for everything. And everything in its place. Each of these themes is evident in our Ottawa Distribution Partner's new Green Learning Center. A java center where contrasting backsplash tiles are protected by durable Corning® Willow® Glass. The predominantly glass "jewel box" conference room with a stunning floor-to-ceiling portrait of the company founders, imparting the firm's culture and philosophy. Walls do double-duty with a warm wood finish inside the conference room; while outside, facing an informal work space, imbedded monitors vanish into the black back painted glass when not in use. It's a balance of design, comfort and practicality.

## SOLUTIONS

- Pivot Doors
- Frameless Glass Barn Doors
- Combination, Solid and Glass Walls
- Glass Clerestory
- DIRTT Power
- Millwork
- Java Center
- Seismic
- Acoustical Management
- Imbedded technology

## FINISHES

- Enzo Approach
- Corning® Willow® Glass
- Back Painted Glass
- Clear Tempered Glass
- Chromacoat
- Thermofoil
- Wood Veneer
