

This high-end space attracts potential staff and customers alike.

## ABOUT THE PROJECT

In a highly competitive market for real estate customers and agents alike, this agency wanted to create a high-end, premier touchdown space that would create an instant and lasting impression. Sliding barn doors and imbedded technology make the most of the limited space, which includes private conference rooms, open lounge areas, touchdown desks and a small kitchenette. Glass clerestory and full-height walls keep the space airy, with writeable surfaces and decorative panels providing visual/privacy breaks.

## SOLUTIONS

- Barn doors
- Combination walls, glass clerestory
