EDUCATION | TAOS, NM

ISSUE #407

## ABOUT THE PROJECT

UNM Taos is a workforce engine that drives their local economy. With healthcare the leading job creator in Northern New Mexico, the university seized the opportunity to expand their STEM and Health Sciences programs. Repurposing the Rio Grande Hall at the Taos Civic Center created the needed program capacity. Working with DIRTT, state-of-the-art learning labs now provide quality educational opportunities for students. DIRTT's agile healthcare solutions mean the labs can be updated as technology evolves, helping students learn within the evolving realities of healthcare.

## SOLUTIONS

- Amico medical gas
- Barn and butt hinge doors
- Cornice
- Solid, cladding and glass clerestory walls
